Date and Remarks	Orders of the Tribunal
Item No. 13 December 18, 2013	<p>Heard. Perused.</p> <p>Today Professor C. R. Babu, Chairman of the committee constituted by MoEF to critically analyze and examine the Yamuna River Front Development Plan and to give suggestions for its further improvement is present before us. He submits that the scope of the work assigned to them is considerably big and involves important issues concerning Yamuna River Front in respect of which the requisite data is yet to be collected and study carried out to suggest fruitful measures for improvement of Yamuna River Front. According to him this would require time till 15th March, 2014.</p> <p>Learned Counsel appearing for the applicant concedes that the task is big but the extent of time called for is not commensurate with the requirement of the study.</p> <p>It is true that the task at the hands of the Expert Committee has a wide scope and would certainly require some more time. We are informed that some data is available with DDA and MoEF. However, such data appears to be provided for the first time by Geo-Spatial Delhi Ltd. (GSDL) in form of 0.6m contour interval maps examination of which will result in better mapping of Yamuna River Front flood plan.</p> <p>In this scenario we grant some time to the Learned</p>

Members of the committee till 15th February, 2014, and we hope that efforts would be made to collect and analyse the data in order to suggest to us the fruitful measures by that time. If some more time is justifiably required we may consider that request on that date.

The committee shall mark the existing features of the Yamuna River Front in the map which they would prepare. A status report be submitted regarding the aforesaid on 15th February, 2014.

List this matter on 17th February, 2014.
