| <p>Order No.23 18th September, 2017</p> | <p>A compliance report has been submitted before us along with the photographs of the work that has been done so far. While comparing these photographs with those of 21.08.2017 that were filed before us by way of compliance, we find that progress of the work has been very slow. The agency which is carrying out this work needs to expedite without compromising with the quality of the work.</p> <p>In addition to the above simultaneously the Urban Improvement Trust, Kota and / or Municipal Corporation, Kota must also take up the work of cleaning of the nallahs by removing the solid waste and the vegetation that is going inside the nallah that is essential otherwise most of the solid waste including plastic bags, polythene etc. will all get trapped in the said vegetation.</p> <p>On the last occasion we had also directed to prepare river front development project and submit the same before this Tribunal. On the next date of hearing we would expect that the said project report be submitted before us.</p> |

We would expect that at *Sajidera* at Kota work should be completed before the *Dashera Mela*.

Let these matters be listed on **3rd October, 2017**.
