Jal Jeevan Mission

Narendra Modi
Prime Minister

'Jal Jeevan Mission' is a major development parameter of the states to provide water to every household. Many states have done a commendable job in this direction while many other states are moving forward towards the same. Now we need to make sure that once this system is in place, even the maintenance must be done equally well. Gram Panchayats should lead the Jal Jeevan Mission; and once the work is completed, they should also certify that sufficient as well as clean water has been made available. Every gram panchayat can also submit monthly or quarterly report online regarding the number of houses in its village that are getting tapped water supply. To ensure that the quality of water is up to the mark, a system of periodic water testing should also be developed.

PM's video message at All India Annual State Ministers' Conference on Water held on 5th February, 2023

Gajendra Singh Shekhawat

Union Minister, Jal Shakti

“If we work together, we will surely achieve water security and assured service delivery of Water, Sanitation and Hygiene (WASH) services. PHE departments should be ready for a new challenge and expectations of people after supplying water at home.”

“In this effort, the role SPM-NIWAS will be crucial and all State Governments and local bodies must utilize the facilities at institute for capacity building and training of field officials”.

1. Introduction

Jal Jeevan Survekshan (JJS) was launched by Hon'ble vice President of India on 21st Oct.2022 to assess districts and states on their performance in achieving the objectives of the JJM. The overarching purpose is to motivate and to bring in healthy competition among the districts, while recognizing the efforts of the top performing districts on monthly and quarterly basis. Under JJS, there will be monthly, quarterly, and annual National Ranking & felicitation of districts as per the pre-defined criteria.

2. Components of Jal Jeevan Survekshan:

- ◆ Self-reporting in JJM-IMIS portal.
- ◆ Assessment of functionality of tap connections and ground truthing, through an independent agency.

3. Key performance indicators

The performance of districts is calculated based on key performance indicators chosen based on coverage per centage of household tap water supply in the districts/state. The broad categories are as under

- i) Physical progress (50 Marks)
- ii) Water quality monitoring & surveillance (30 Marks)
- iii) Institutional arrangements for assured water supply (20 Marks)

Criteria for assessment of performance in various category of districts: -

Aspirant (★), Performer (★★) & Achiever (★★★) category :-		
Performance criteria		Weightage %
Physical Progress	Residual FHTC coverage	50
Water Quality	% of villages where household tap water sample is tested	10
	% of villages where source water sample is tested	10
	% of villages having women trained for FTK testing	10
Institutional Arrangements	% of villages having VWSCs	10
	% of villages with skilling done	10

High Achiever (★★★★) category :-		
Performance criteria		Weightage %
Physical Progress	Residual FHTC coverage	40
	% of Har Ghar Jal (HGJ) certified villages by Gram Sabha	10
Water Quality	% of villages where household tap water sample is tested	10
	% of villages where source water sample is tested	10
	% of villages having women trained for FTK testing	10
Institutional Arrangements	% of villages where schemes are handed over to VWSCs	10
	% of villages with skilling done	10

Front Runner (★★★★★) category :-		
Performance criteria		Weightage %
Physical Progress	% of Har Ghar Jal (HGJ) certified villages by Gram Sabha	50
Water Quality	% of villages where household tap water sample is tested	10
	% of villages where source water sample is tested	10
	% of villages having women trained for FTK testing	10
Institutional Arrangements	% of villages where schemes are handed over to VWSCs	10
	% of villages with skilling done	10

4. Category of Districts

S. No.	Coverage	Category
1	0% to less than 25%	Aspirants (★)
2	25% to less than 50%	Performers (★★)
3	50% to less than 75%	Achiever (★★★)
4	75% to less than 100%	High Achiever (★★★★)
5	100%	Front Runner (★★★★★)

5. Felicitations:

In order to motivate districts, following felicitations are given

- **3 Best performing districts in each category (15):** For each of five categories the performance score of districts is key performance indicators (KPIs). The top three scoring districts in each category are recognised.
- **3 fastest moving districts within each category (12):** As described in previous page the districts are divided in four categories. Thus, for each category three districts that have provided highest coverage in percentage terms taking base line as beginning of the month, are selected.
- **Districts graduating to higher categories:** The districts that increase the % coverage of HHs and move to higher categories are noted here

This Bulletin covers monthly National Ranking for January 2023.

MONTHLY RANKING OF STATES/ UTs

6.1 Categorisation of States

The categorisation of states is as below

- i) Coverage of HH tap water supply is < 50%
- ii) Coverage of HH tap water supply is >50% & <75%
- iii) Coverage of HH tap water supply is >75% & <100%

Monthly ranking of states/UTs has been calculated as per = (Sum of scores of all the districts in respective state/UT)/(Number of districts in the state/UT)

6.2 Ranking of States are as below:
