

GOVERNMENT OF INDIA
MINISTRY OF HEAVY INDUSTRIES
RAJYA SABHA
UNSTARRED QUESTION NO. 897
ANSWERED ON 09.02.2024

IMPACT OF SUBSIDY REDUCTION ON ELECTRIC TWO-WHEELER INDUSTRY

897. SHRI MANAS RANJAN MANGARAJ:
SHRI NIRANJAN BISHI:

Will the Minister of Heavy Industries be pleased to state:

- (a) the data on impact of the subsidy reduction on electric two-wheeler sales, percentage decrease in sales and any shifts observed in consumer behavior;
- (b) whether Government has identified any specific regions or demographic segments where the impact of subsidy reduction on electric two-wheeler sales is more pronounced, if so, the details thereof;
- (c) whether Government is aware of the challenges faced by manufacturers, particularly smaller companies, in adapting to the subsidy reduction and maintaining competitiveness and whether any steps have been taken in that direction; and
- (d) if so, the details thereof, if not, the reasons therefor?

ANSWER

THE MINISTER OF STATE FOR HEAVY INDUSTRIES
(SHRI KRISHAN PAL GURJAR)

(a) & (b): Sir, the Government has reduced the Electric Vehicle (EV) subsidy per unit to 15% of the ex-factory price from 40% for e-2Ws under FAME India Scheme Phase-II keeping in mind the increasing penetration of the EV market. This has been implemented after stakeholder's consultation meetings with OEMs of e-2W on 16.05.2023 and the approval of the Project Implementation and Sanctioning Committee (PISC) for FAME India Scheme Phase-II.

Further, as per the inputs received from Ministry of Road Transport and Highways, no slow-down has been observed in the sale of electric two wheelers in the country after subsidy reduction per unit to 15% of the ex-factory price from 40% for e-2Ws under FAME India Scheme Phase-II. The State and month-wise details of sales/ registered e-2Ws for the financial year 2022-23 and 2023-24 (as on 06.02.2024), is at **ANNEXURE**.

(c) & (d): Sir, under FAME-India Scheme phase-II, no incentive is given to electric vehicle manufacturers. The incentive/ concession is provided to consumers (buyers/end users) in the form of an upfront reduced purchase price of hybrid and electric vehicles to enable wider adoption, which are reimbursed to the OEM (EV manufacturers) by Government of India.

Further, following two Production Linked Incentive (PLI) Schemes are being implemented by the Ministry of Heavy Industries for manufacturers to boost manufacturing of electric vehicles in India and increasing in Export:

Contd.....2/-

- i. The Government on 12th May, 2021 approved Production Linked Incentive (PLI) scheme, 'National Programme on Advanced Chemistry Cells (ACC) Battery Storage' in order to promote manufacturing in the country. The budgetary outlay of the scheme is Rs. 18,100 crores. The scheme envisages to establish a cumulative ACC battery manufacturing capacity of 50 GWh.
- ii. Production Linked Incentive (PLI) Scheme for Automobile and Auto Component Industry was approved on 15th September, 2021 with a budgetary outlay of Rs. 25,938 crore, which provides financial incentives to boost domestic manufacturing of Advance Automotive Technologies (AAT) products (including electric vehicles and their components).
