Date and Remarks	Orders of the Tribunal
Item No. 3	
October 17,	This application has been filed for a direction to close
2014	all hazardous industries functioning within the territory of
	Delhi including steel pickling industries.
5	As it is admitted that the DPCC is taking appropriate
A B	actions in this regard, we are of the view that no further
119	issue is anymore in the existence for the purpose of
	adjudication. Accordingly, the application no. 159/2013
21	stands disposed of as nothing survives in this case.
	We make it clear that while considering the
	applications of individual units and also existing units, the
	DPCC shall not grant permission to any of the units which
	are discharging untreated effluents directly or indirectly
	into the river Yamuna and are not following the Hazardous
	Waste Management Rules.
	Needless to state that if in the event the applicant finds
	that the DPCC is acting against the interest of the
	environment, it is open to the applicant or any of the
	persons who are affected to approach this Tribunal in the
	manner known to law.
